To Whom It May Concern:

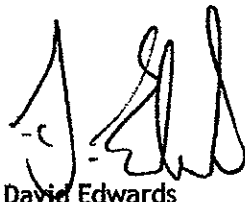

I would love to be able to say that after working with Marcus and Action Coaching I have now retired and have more cash than I know what to do with, but I've found that isn't what business coaching is about. For us it has been about giving us the tools, knowledge and sounding board that we need to work at making our business better, it is then about applying that information.

Our company has been in operation for just over 6 years. We have worked with Marcus for about a year and a half now and in that time we have gone from fluctuating in-the-red and break-even years to a healthy profit for the last six months. There have been no quick-fix solutions just sound advice, looking at things differently and application.

Marcus' best asset is his positive attitude, easy going nature and humour. He is exceedingly patient and guiding. He has a great way of cutting through the rubbish, holding us accountable and steering us in the right direction when we get off track.

We are still a long way from being the model business, but thanks to Marcus our company now has direction and milestones, we now know how to plan for and measure our success. There is no quick fix, just a lifetime of learning ahead. And that's OK.

Thanks Marcus.
